UNIQUE GIFTS & PROMOTIONS

SEASON

2024

SEASON catalog 2024

EOY end of year

TAILOR-MADE SOLUTIONS

- We actively communicate
- We find a solution just for you
- An innovative approach
- Custom colours and design starting from 50 pcs
- Tailor-made technical solutions
- We will prepare 3D designs for you
- Full-colour LED + CMYK
- Your own custom packaging and accessories

QUALITY CONTROL

- Multiple tests for every order
- Checks at every phase of the production process
- We meet EU legislative requirements
- Standard 2-year warranty
- Quality and safety in 1st place
- A professional approach and familiarity with technology
- You get what you order

SUSTAINABILITY

- We support ecology and sustainable resources
- Natural materials: wood, cork, bamboo wheat and corn straw, hemp
- Recycled materials: rPET, rABS, recycled paper and cardboard
- Sustainable energy sources: solar charging
- ECO-material packaging
- A wide selection across categories

ALCOHOL TESTER WITH FUEL CELL ELECTROCHEMICAL SENSOR, LED DISPLAY AND KEY RING

PREMIUM

HSM043

A high-accuracy pocket alcohol tester with an electrochemical sensor based on the "fuel
cell" principle; the result is not affected by other substances in the breath and does not
depend on the volume of exhaled air. The same sensors are also used in professional
testers, e.g. for the police. You can perform up to 2,000 measurements before recalibrating
the sensor. The device issues an alert if the alcohol concentration in the breath exceeds
a user-specified limit. Package includes a set of replaceable washable mouthpieces.
Can be connected to a phone app via Bluetooth. Power supply: AAA batteries.

MOQ 50 ▫ Smaller quantities subject to request.
